SERVICES

SOUTH EAST SALES, INC. is committed to providing quality products and solutions for the Public Safety sector to meet the ever changing demands of today's technology. We offer reliable, "user friendly" and efficient software and services for all sizes and types of agencies.

Software

- **Software** – SES offers innovative software solutions tailored to the public safety sector. The product line includes: **Investigative/Narcotics Management** system, **Evidence /Property Room Management** system, **Departmental Property Management** System, **Personnel** system, **Vehicle Management** system, **Animal Control** system, and **Policy Manual** system. SES also provides some third party solutions where that software meets the same stringent SES standards.

Hardware

- **Hardware** – SES is an authorized reseller of Dell Computers, Motion Computing Tablet Personal Computer's, American Power Conversion uninterruptible power supplies, and Microsoft Software. SES can provide network installation and supply your agency with all components of a local area network: Servers, switches, desktop computers wireless access points, table pc's and notebooks for field data capture can all be part of your single supplier access, ensuring ease of administration and integration between components.

Consulting

- **Consulting** – SES personnel are available to assist you with a *proactive* information management plan to facilitate your agency's operation. We can provide you with a needs analysis for both hardware and software, and assist you with a design and implementation plan for hardware, software and network installation.

Evidence Room Audits

- **Evidence Room Audits** – SES offers a full range of Evidence Room verification services. Our personnel have training and experience in Material Management and auditing. SES can assist your agency in reviewing your current procedures or help you update your current procedures to ensure evidence room integrity.

Policy Manual Distribution

- **Policy Manual Distribution** – SES can assist your agency with conversion of existing policy manual to a computerized format. This updated format allows for text searches and topical indexing for easy access and reference. We can provide software and training for agencies who wish to maintain data "in house".

Form Development

- **Form Development** – SES can develop and implement forms utilized by your agency for "on the spot" data entry.

Training

- **Training** – SES will provide comprehensive training on all products. We can also help you stay current with the latest Microsoft products.
